Strategies to Manage Phosphorus on Livestock Farms

*Presented by Randy Pepin, Extension Educator - Ag Production Systems*

Repeated high rate application of manure has elevated the phosphorus levels of many soils. This presents problems with many nutrient management plans. U of M Extension is offering “Strategies to Manage Phosphorus on Livestock Farms” at several locations. Lunch is included. Additional workshops to come.

**Upcoming Workshops:**

**Jan 9** – Sibley County Service Center, Sibley Room, 111 8th Street, Gaylord, MN. Registration 9:30; Program 10:00-2:00. Contact: Julie Sievert (507) 237-4106.
